

DHEERAJ SURE

Software Developer · Full-Stack · Backend Engineer

+91 7204552865 | dheerajsure595@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full-stack developer with a customer-first mindset and strong troubleshooting instincts — experienced diagnosing bugs, configuration issues, and integration failures across REST APIs, databases, and cloud systems, and collaborating with engineering teams to resolve technical cases quickly.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Golang, Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Django, REST Framework, JWT, WebSockets

Databases & Caching: MongoDB, PostgreSQL, Redis

Cloud & DevOps: AWS (EC2, S3, Lambda, ELB, ASG, VPC), Docker, Git, GitHub, CI/CD

Networking & CS Fundamentals: DNS, HTTP/HTTPS, REST APIs, Object-Oriented Design, Data Structures & Algorithms

Monitoring & Testing Tools: Prometheus, Grafana, Loki, Postman, Thunder Client, Jest, Vitest

AI-Assisted Development: GitHub Copilot, Cursor, Claude Code

WORK EXPERIENCE

Backend & Full-Stack Developer Intern

Jun 24, 2026 – Present

Sumeru Digital Solutions

- Designed and implemented 15+ production REST APIs with Node.js/Express.js, with robust validation, error handling, and CRUD operations integrated with MongoDB.
- Diagnosed and resolved API/database integration issues by analyzing logs and reproducing failures in test environments prior to deployment; reduced API response time by 30–40% via Redis caching for frequent MongoDB queries.
- Secured user sessions with JWT via HTTP-only cookies; troubleshooted and validated all endpoints using Postman and Thunder Client.
- Improved React frontend rendering by 30% via memoization and lazy loading; collaborated via Git/GitHub following agile code-review workflows.

Web Developer

Feb 2, 2026 – May 18, 2026

Mind Matrix

- Built an automated deployment agent that runs the test suite on every release, detects the specific files where tests fail, analyzes the underlying code, documents root-cause analysis, and applies corrective fixes automatically before redeploying.
- Reduced average deployment time by ~40% by eliminating manual debugging and repeated redeploy cycles for failed builds.
- Fixed bugs across the existing codebase by tracing issues to their root cause and applying targeted corrections, improving overall application stability.

PROJECTS

Real-Time Chat Web Application

GitHub | Live Demo | Docker Hub

React.js · Zustand · Node.js · Socket.IO · MongoDB · Redis · JWT · Prometheus · Grafana · Loki · Docker

- Built a scalable real-time messaging platform with WebSocket (Socket.IO) for sub-100ms message delivery.
- Containerized with Docker and deployed live; implemented rate limiting, JWT auth, and Redis session caching end-to-end.
- Configured Prometheus and Grafana dashboards and Loki log aggregation for full observability across API latency and WebSocket connections, enabling faster diagnosis of production issues.

AI-Based Interview Platform

GitHub | Docker Hub

React.js · Node.js · Express.js · MongoDB · JWT · OpenAI LLM · Docker · Cloudinary · Nodemailer

- Built a full-stack AI-powered interview platform with dedicated admin, recruiter, and candidate portals, backed by REST APIs for each service and data stored in MongoDB.
- Integrated an LLM (OpenAI) to dynamically generate interview questions, with video recording and speech-to-text transcription of candidate responses.
- Implemented JWT-based authentication, Cloudinary for media storage, and Nodemailer for email and OTP verification.
- Containerized the application with Docker for consistent, portable deployment across environments.

Simple Notes Application

GitHub

React.js · Django · Django REST Framework · PostgreSQL · Axios · CSS

- Full-stack CRUD app: responsive React frontend consuming a Django REST API backed by PostgreSQL.
- Manually tested all API endpoints and UI flows using Postman to validate CRUD operations and Django REST responses.

EDUCATION

B.E. — Robotics and Artificial Intelligence

2022 – 2026

Bangalore Institute of Technology · CGPA: 8.0 / 10.0

Pre-University Course (PCM)

2020 – 2022

Sri Chaitanya College of Education · Score: 91%

Secondary School Certificate (SSLC / 10th)

2019 – 2020

St. Anne's Lions High School · Score: 76%
